DVD - Errors based on Order issue between eCC and CS

Purpose: Follow this procedure when a user reports issue with DVD - errors presenting and are unable to resolve them. At the top left hand corner of the Validation dashboard, there are instructions available for the clinics on how to address the various types of errors.

Required Information to be documented in each ticket:

Contact Name Contact Number Clinic / Facility Number Patient Name Patient MRN Error Date Document date Detailed Description of the issue. Screen shot of the Error(s)

Troubleshooting Process:

1. Confirm with user that the issue matches the issue reported.

OR

2. Please document required information and troubleshooting details in the Incident.

3. Please attach any referenced knowledge articles to the incident.

4. There are two ways to confirm information documented in Chairside:

View the Treatment Sheet for date of service. These are found in the Treatment Sheet Archive.

Checking the Chairside Treatment Data in eCC

5. Documentation in Chairside MUST match eCube Clinicals a mismatch produces a validation error. Each type of order as well as the details, dosage etc. for example: Catheter Packing order is different to Catheter Declot order. A common issue is for two orders/medications completed (signed off) in Chairside and only one order completed in eCube Clinicals. where there is a mismatch between orders in CS and orders in eCC, check with the user on the following:

If Chairside was documented correctly, the matching orders must be completed in eCube Clinicals. If Chairside was documented incorrectly, and correct orders have been completed in eCube Clinicals, then the treatment sheet must be scanned into DI/DocMgr, noting the error, only then validation errors will clear. If the user states, they scanned in a Treatment Sheet to address the validation error and the errors did not clear please refer to DVD - Errors Not Clearing not clearing after scanning to DocMgr or DI.

6. Follow the resolution process.

7. If the process is followed and additional assistance is needed please follow the escalation process.
