## Travel Management Company & Online Booking Engine

### Travel Management Company

By definition a Travel Management Company (TMC) is a travel agent that fully manages the business travel requirements delegated by an individual, company or organisation to fundamentally save clients both time and money. A TMC is also commonly known as a business travel agency or corporate travel provider.

American Express Global Business Travel, is our exclusive travel agency partner, and is responsible for booking and processing rail, car rental, airline tickets and hotels under the Travel and Expense Policy, ensuring Fresenius safety/compliance and purchasing requirements.

### Online Booking Engine

By definition an Online Booking Engine (sometimes referred to as an Online Booking Tool) is an internet-based system that allows you to book flights, rail, hotels and more. The goal of an OBE is to provide simple, effective and hassle-free travel booking that's compliant with company travel policies.

To maximise the cost saving for Fresenius-Kabi, it is recommended that wherever possible travel is booked using the American Express Global Business Travel Online Booking tool as opposed to calling Traveler Care.
