## CareTeamHub – Completed Data in CTH Not Updating in eCube Clinicals

**Purpose:** Follow this procedure when a user reports assessments/notes completed in CareTeamHub are not updating in eCube Clinicals. Multiple patients can be submitted at a time, provided required information is included for each patient. If more than 3 patients involved, screenshots only required for a few samples.

**Required Information to be documented in each incident:**

Contact Name  
Contact Number  
User Role  
Role: eg. SW, RD, RN etc.  
Clinic / Facility Number  
Patient Name  
Patient MRN  
Assessment / Note ID (this is obtained from the url when viewing assessment/note in CTH)  
Type of Assessment / Note  
Completion Date of Assessment / Note  
Detailed Description of the issue.  
Screenshot of the Completed Assessment/Note including url  
Screenshot of status of Assessment/Note in eCC

**Troubleshooting Process:**

1. Confirm with user that the issue matches the issue reported.
2. Please document required information and troubleshooting details in the Incident.
3. Please attach any referenced knowledge articles to the incident.
4. Advise User to allow 5 minutes for data to flow to eCube Clinicals.
5. If it has been over 5 minutes, check the status of the assessment/note in CTH.
6. Confirm the status of the assessment/note in eCube Clinicals matches CareTeamHub. If there is mismatch gather required information, follow escalation process.
7. Document the Assessment ID along with other required information.

**How to get Assessment ID:** Check URL:
