All mobile devices are assigned to FMC employees. Mobile devices used by contractor/agency staff members must be assigned to the corresponding FMC supervisor in Tango Mobile. The charges related to the mobile device will be billed to the FMC employee's cost center or department as it appears in WorkDay. If you want the mobile devices charges to go to a different cost center, you have two options:

1. Assign the FMC employee to that cost center or department in Workday.
2. Reassign the device to a different FMC staff member who's cost center or department in Workday is where you want the charges to be billed.

Mobile bills are paid one month after the charges are incurred, so when a device moves from one cost center to another you might see one more charge on the old cost center.
