If you accidentally delete a file or folder in OneDrive, you may be able to recover it later from the OneDrive recycle bin.

Note: Files once deleted can be recovered for only up to 93 days unless they have been manually deleted from the recycle bin

Go to One drive online by clicking on the OneDrive tray icon on the bottom right of the screen and then click on view online

In the navigation pane on the left, select Recycle bin.

Select the files or folders you want to restore and then click Restore.
