This Tutorial will help you to troubleshoot Intune calendar Sync Issues on the iOS Mobile devices.

Supported Location: All.

Step1 : Please check on the device, if the calendar entries are missing on mobile device and Outlook on PC .

Step2 : Check the calendar entry in the native calendar app , if this entry is available. If yes then you need to add this entry manually to your calendar of Outlook App.

Step3 : Maybe you have created the some calendar entries with your icloud calendar as default calendar.

Then you need to edit the calendar entry and save the appointment to another calendar.

Step 4 : In the Outlook App on your mobile device you will find on the bottom "Email" , "search" ( also used for contacts & Calendar)

Here you can check your calendar.

Step 5: Please check also under "Settings" App --> Calendar --> which calendar is set as default calendar .
