Step-by-step guide

Please make sure your PC is connected thru VPN or is in the office.

Click on the Start Menu

Type "cmd" and press enter to open command prompt.

Type "gpupdate /force" and press enter and wait until Computer and User Policy updated successfully message appears.

Close command prompt and open the Edge browser

Click on "..."

Select "Help and feedback"

Select "About Microsoft Edge"

Verify that the downgrading is progressing, please wait until you will see the "Restart" button. Please press that. MS Edge will restart.

Go to About Microsoft Edge page again and verify the installed version start with 109....

Icons may not show the picture.

It will appear again after the first access
