Step 1 – Carefully move the T-machine forward to access the back connection panel.

Step 2 - Locate the Ethernet Cable port on the back panel and insert the Ethernet cable into the port.

.

Step 3 - Insert the other end of the Ethernet Cable into the data port on the wall near the T-machine

Step 4 – Confirm that the T-machine is connected to the network by checking for the Ethernet network icon (see below) in the bottom right side of the T-machine screen.
