General Information:

Possible symptoms/errors:

User wants to know how to use Flash Fill in Microsoft Excel

Alternative names of the system:

Flash Fill

IMPORTANT NOTICE:

N/A

Solution:

Flash Fill automatically fills user's data when it senses a pattern in Microsoft Excel. Excel's Flash Fill feature fills in the rest for them based on the pattern they provided once they have established a pattern. This article shows how Flash Fill feature works and how to turn it on in Microsoft Excel.

NOTE: Flash Fill is only available in Excel 2013 and later.

Details:

If Flash Fill does not generate the preview, it might not be turned on. To turn Flash Fill on, guide user to do the following:

User must go to File then select Options.

In the Excel Options window, advise user to select Advanced.

Under Editing Options, user must check the Automatically Flash Fill box, then click OK.
